SHAKY ERC20 ALLOWANCES

Rosco Kalis @RoscoKalis · Oct 13, 2019
If you know me a bit, you know you can't just casually bring something like this up in conversation and expect me not to spend a rainy day implementing this!
Thanks Hagibis
Paul Razvan Berg @PaulRBerg · Oct 13, 2019
Just a few days after my rant on ERC20 allowances at Devcon, @RoscoKalis built revoke.cash
It allows you to inspect all the contracts you've approved to spend money on your behalf

Rabby Wallet exploit prompts users to revoke access

by Jeremy Nation

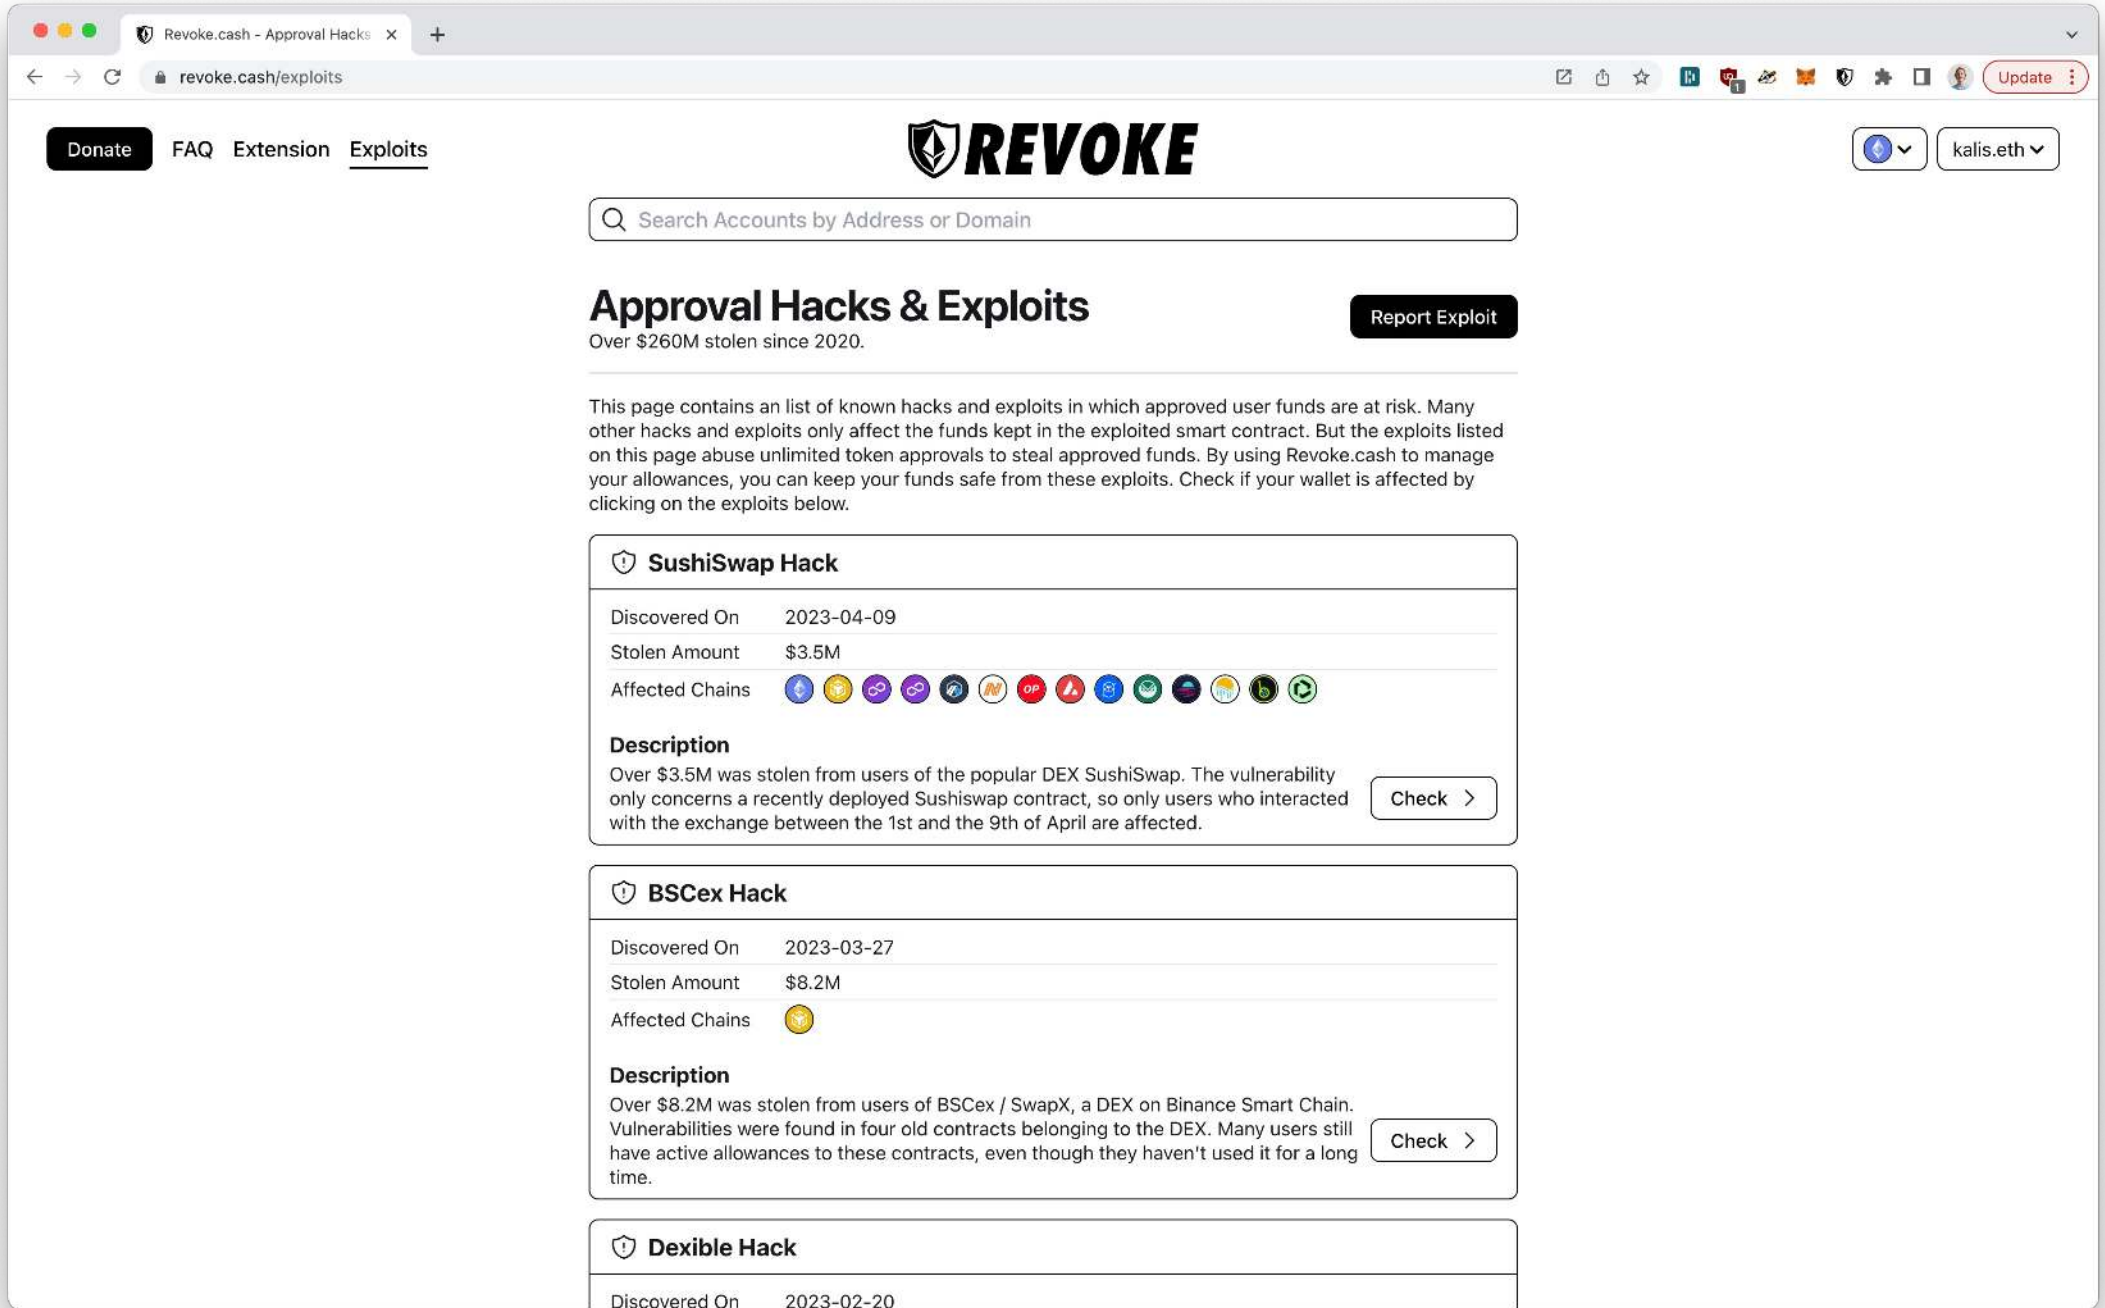

HACKS • OCTOBER 11, 2022, 12:47PM EDT

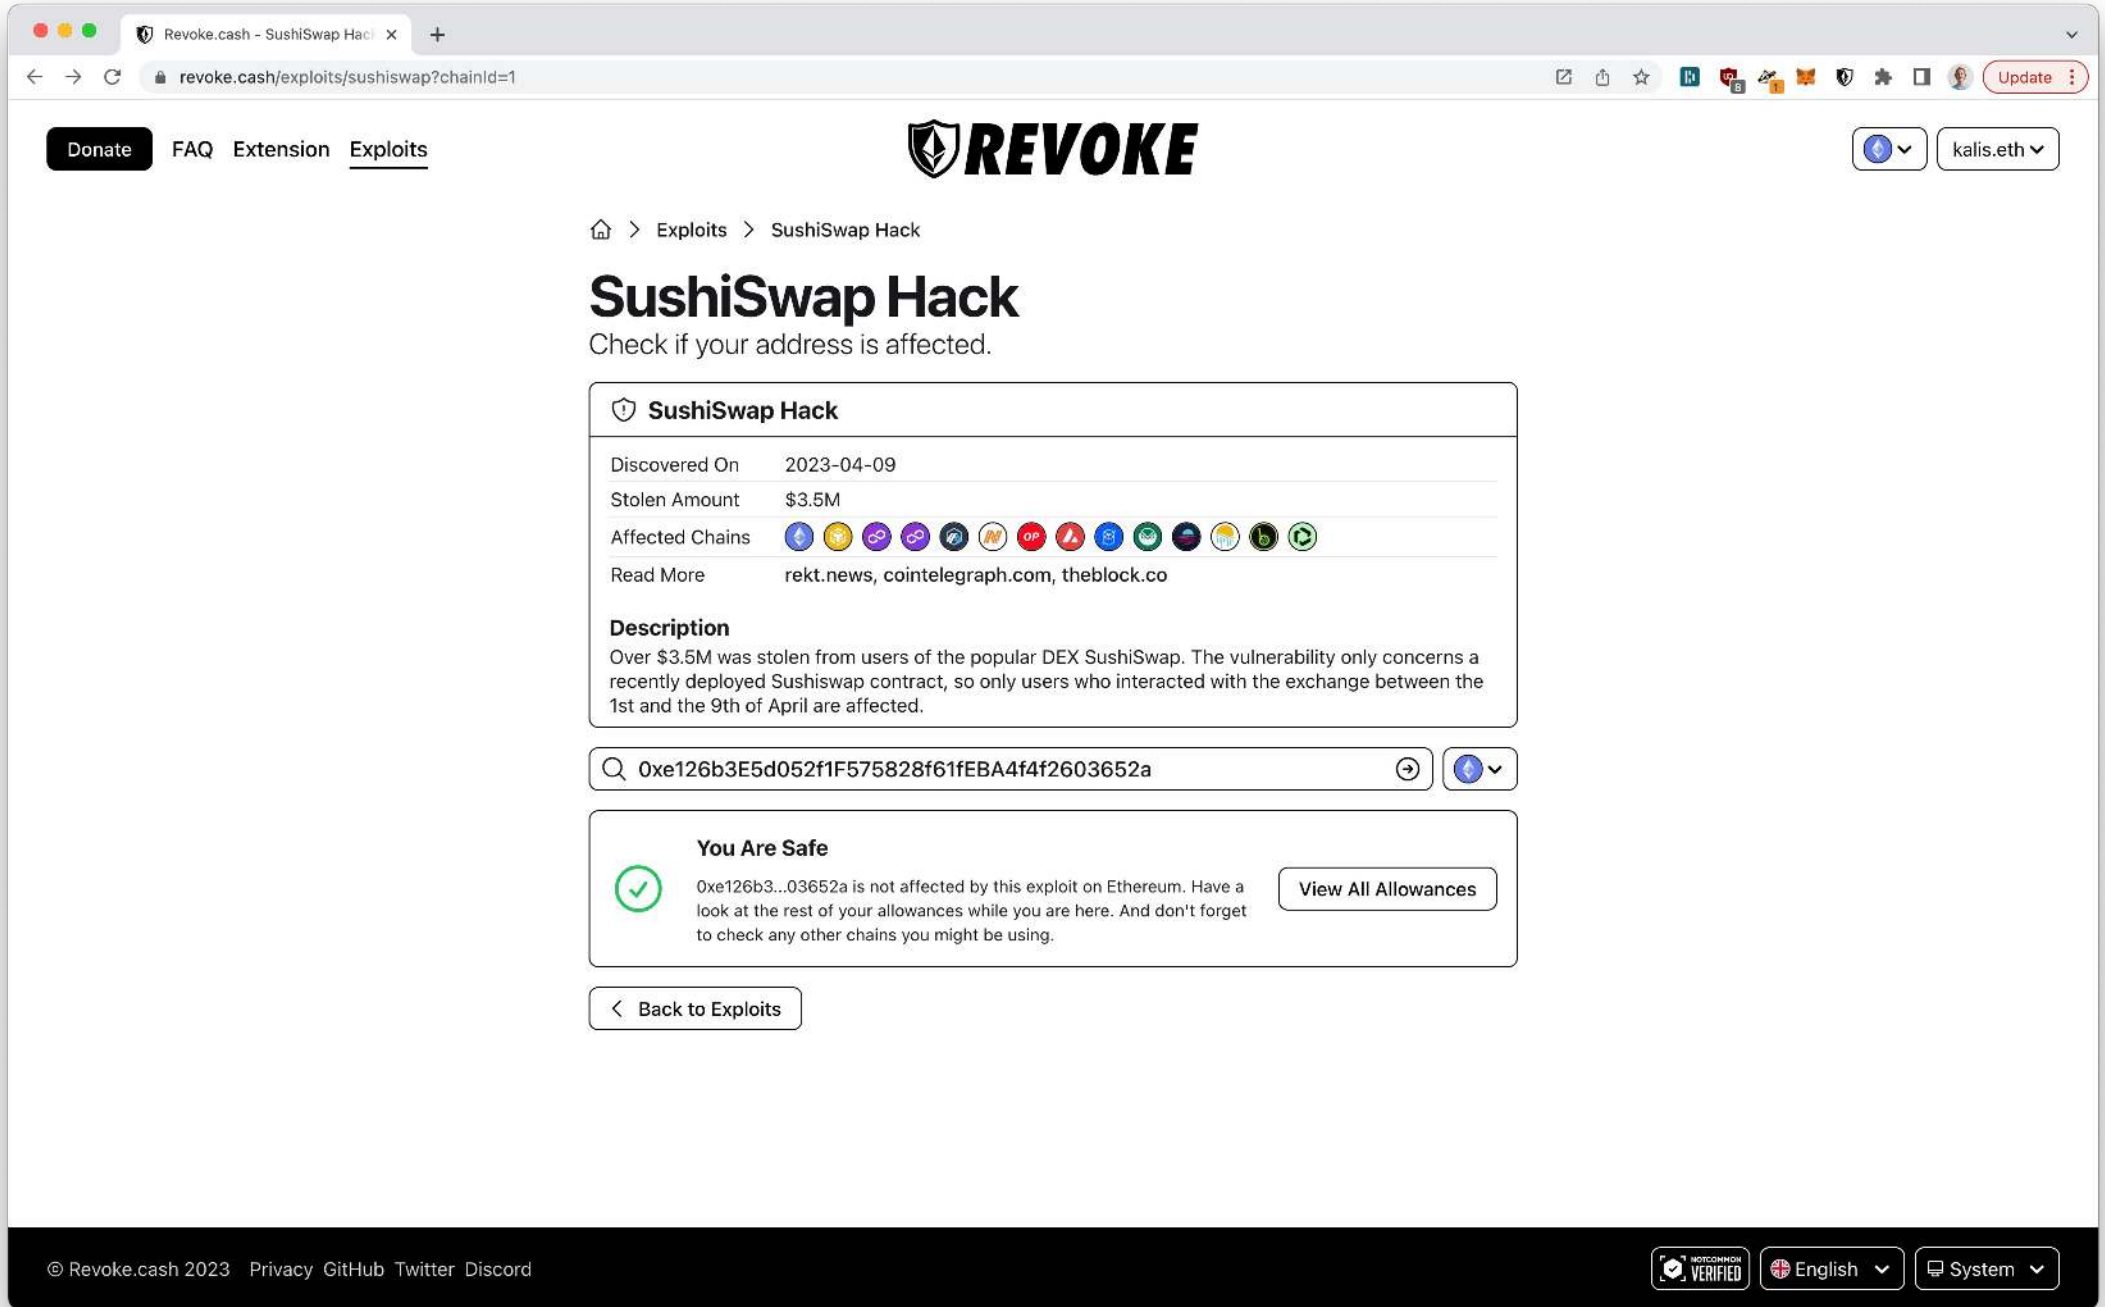

The Block

QUICK TAKE

- An exploited Rabby Swap smart contract caused some users to lose funds as wallets were drained.
- The full extent of the exploit remains unknown, and users are highly recommended to use access revoking tools to ensure safety.

Approval Hacks & Exploits
Over $260M stolen since 2020.
Report Exploit
This page contains an list of known hacks and exploits in which approved user funds are at risk. Many other hacks and exploits only affect the funds kept in the exploited smart contract. But the exploits listed on this page abuse unlimited token approvals to steal approved funds. By using Revoke.cash to manage your allowances, you can keep your funds safe from these exploits. Check if your wallet is affected by clicking on the exploits below.
SushiSwap Hack
Discovered On 2023-04-09
Stolen Amount $3.5M
Affected Chains
Description
Over $3.5M was stolen from users of the popular DEX SushiSwap. The vulnerability only concerns a recently deployed Sushiswap contract, so only users who interacted with the exchange between the 1st and the 9th of April are affected.
Check
BSCex Hack
Discovered On 2023-03-27
Stolen Amount $8.2M
Affected Chains
Description
Over $8.2M was stolen from users of BSCex / SwapX, a DEX on Binance Smart Chain. Vulnerabilities were found in four old contracts belonging to the DEX. Many users still have active allowances to these contracts, even though they haven't used it for a long time.
